

# Welcome!

**Winnipeg Transit Master Plan  
Open House  
Spring 2019**

# About the Winnipeg Transit Master Plan

Winnipeg is growing and our transit system needs to grow too. In the next 25 years, we expect our city will grow to nearly one million people.

**Now is the time to think ahead about what kind of transit system we want for the future.**

How will we connect people and communities around the city in a way that is sustainable and efficient?

The Winnipeg Transit Master Plan will:

- Provide a 25-year vision for our transit system and identify the steps we need to take to get there
- Be a long-term, system-wide plan that covers all aspects of the transit system - Transit, Rapid Transit, and Transit Plus (formerly Handi-Transit) service and infrastructure
- Build on the 2011 OurWinnipeg Sustainable Transportation Strategy and Transportation Master Plan as well as public input from the OurWinnipeg Review

Over the next 12 months, Winnipeggers will have several chances to share input and help shape Winnipeg's future transit system.

# How your input will be used

WE ARE  
HERE!

PHASE 1

Public Input on Current Use and Future Vision

PHASE 2

Public Input on Concepts

PHASE 3

Public Input on Draft Plan

Recommend Winnipeg Transit Master Plan to Council for Consideration

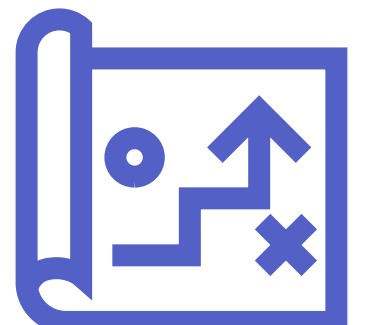

Your input will help inform:

- Key Areas to Study White Paper
- Existing Conditions Report
- Transit System Concepts

Your input will help inform:

- Draft Winnipeg Transit Master Plan

Your input will help inform:

- Final Winnipeg Transit Master Plan

# How you can provide your input

Your opinion matters. Your feedback will help the City understand what is important to you. It will also help us understand what is and what's not working in our current transit system.

Here's how you can get involved:

## Participate in the activity stations

Tell us what is important to you in our future transit system, and what is and what's not working for you in our current system

## Use your own phone

Provide your input online any time before April 20

## Go to the tablet station

Provide your input online before you leave

# Winnipeg transit by the numbers

Here are some facts about our transit system based on 2017 data:

**48 million**

passengers per year or  
over 900,000 per week

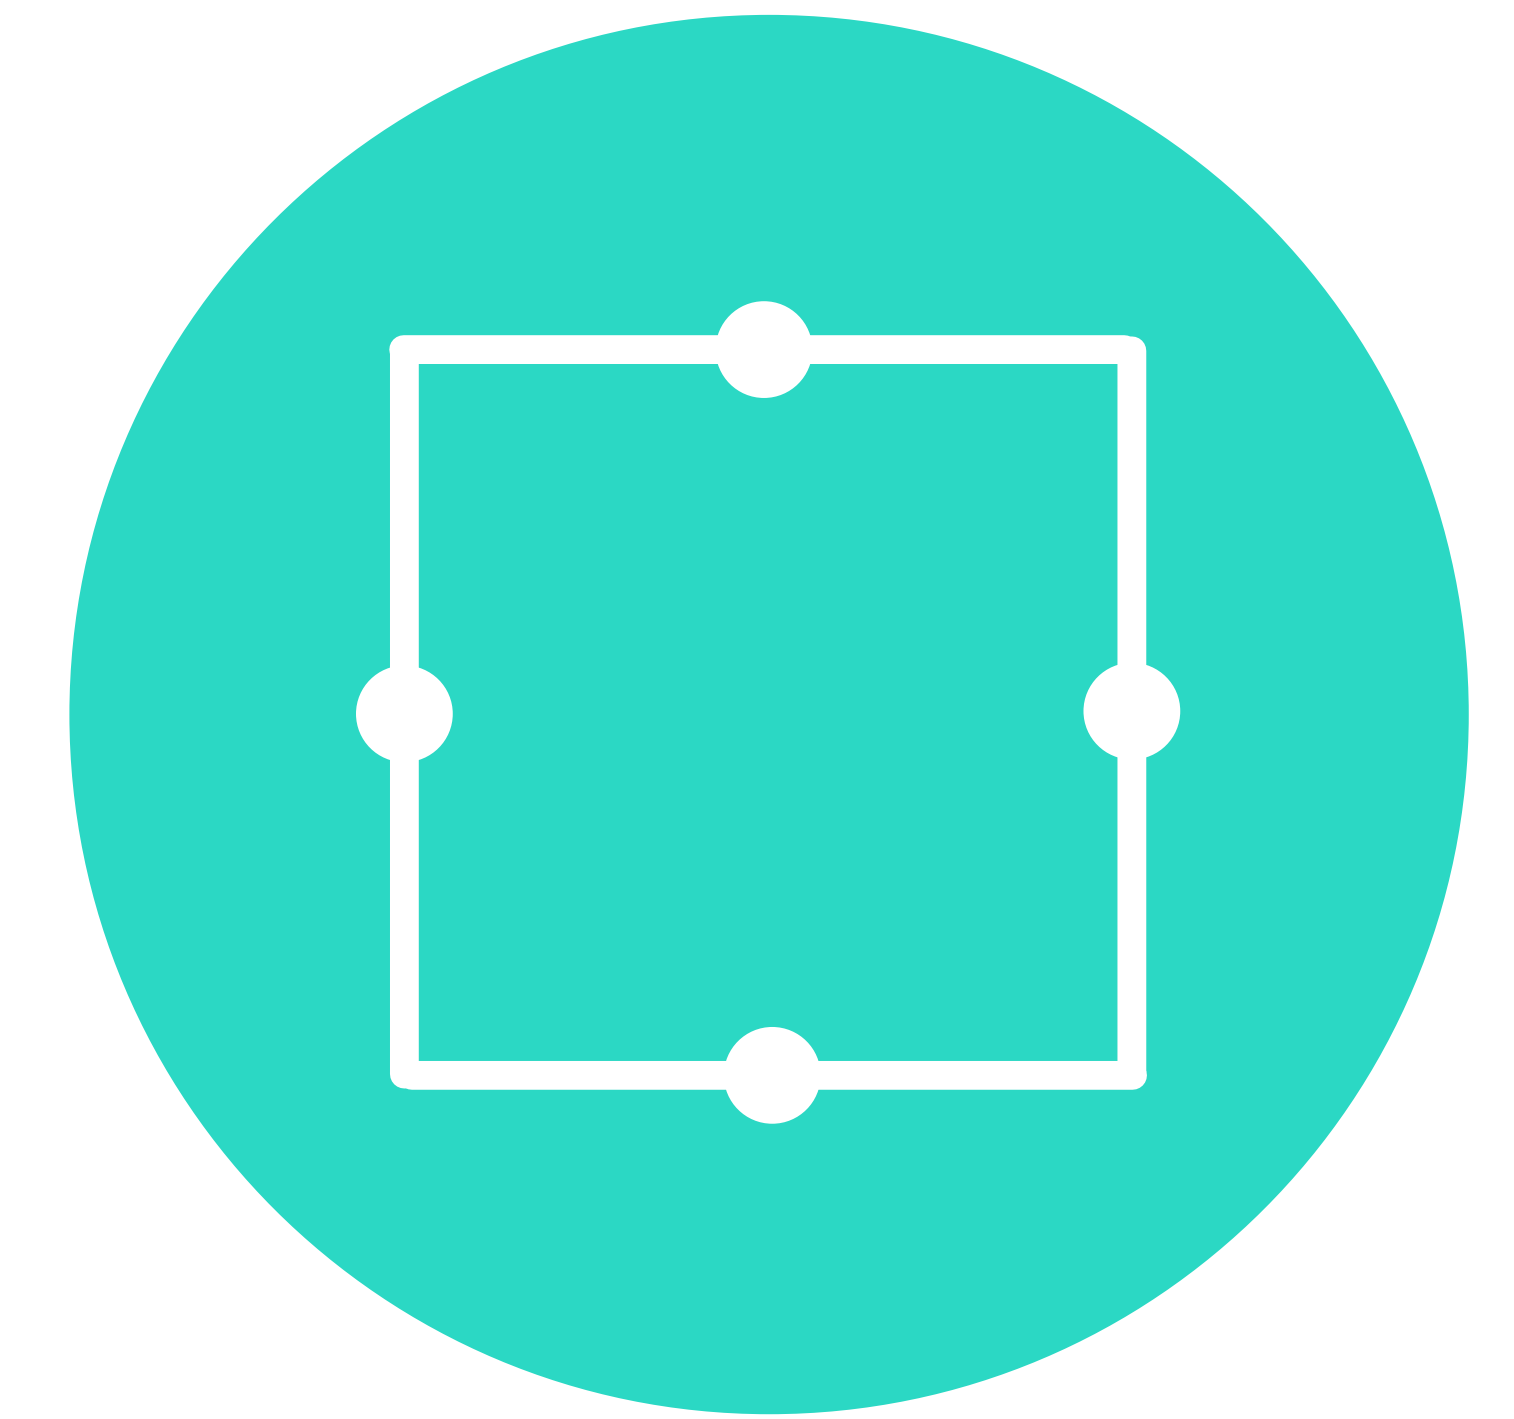

**639**

total buses

**100%**

of bus and transit fleet  
is accessible

**249.8 km<sup>2</sup>**

of service area

# Tell us your vision for Winnipeg's transit system

What should Winnipeg's transit system look like in 25 years as the City's population grows?

Below are some transit themes that build on the OurWinnipeg Transportation Master Plan (2011) and were informed by what we heard in recent City engagements like the OurWinnipeg Review. Use the themes below to tell us about your vision for Winnipeg's future transit system. Add comments on sticky notes for as many themes as you like.

## Efficient & easy to use

Transit that provides frequent, fast service  
Transit that is easy for all to understand, navigate, and use

## Connected & integrated

Transit that offers a variety of ways to get around  
Transit that is integrated with land use and other transportation options (like cycling, ride-sharing, walking, and driving)

## Accessible & equitable

Transit that enables people of all ages and abilities to get around the city  
Transit that provides access and opportunity to people who need it most

## Visionary & sustainable

Transit that is forward-looking and supports goals for an active and healthy population with a low carbon footprint

## Affordable

Transit that is cost-efficient for current and future generations

## Other

# Current use – what’s working for you

When it comes to transit in Winnipeg, what is working for you?

Please use green sticky notes to tell us and identify elements of the transit system that you like.

[winnipeg.ca/transitmasterplan](http://winnipeg.ca/transitmasterplan)

# Current use – what’s not working for you

When it comes to transit in Winnipeg, what is not working for you?

Please use red sticky notes to tell us and identify elements of the transit system that you don’t like.

[winnipeg.ca/transitmasterplan](http://winnipeg.ca/transitmasterplan)

# Ideas to improve our transit system

Please use yellow sticky notes to share your ideas on how to improve transit.
